

# MOBILE INTEGRATED HEALTHCARE

Evolution Health's fully integrated medical practice specializes in providing the highest quality care in the home and alternative settings, whether it's for one patient or a population of thousands. With a focus on the high-risk, medically complex, chronically ill, frail elderly, mobility impaired and other vulnerable patients, Evolution Health reduces the cost of care to risk-bearing entities by understanding that population health requires both planned and unplanned care.

Evolution Health's comprehensive Mobile Integrated Healthcare team enables effective, efficient and personalized assessment of patients. Evolution Health's state-of-the-art Medical Command Centers provide immediate access to licensed medical professionals capable of evaluating the patient's current condition, then matching and deploying appropriate resources to meet the patient's needs.

## EVOLUTION HEALTH SERVICES

# CASE STUDY:

## *Awareness and Intervention Prevents Readmission*

### SITUATION

#### *Patient*

- 55-year-old female with a past medical history of multiple sclerosis, hypertension (HTN), hyperlipidemia, and coronary artery disease (CAD).

#### *Condition*

- Recently released from the hospital after receiving treatment for a heart attack.

#### *Call*

- The patient called into the Medical Command Center on the weekend stating she could not afford her anticoagulant prescription. She had been without her prescription for 48 hours.

### CARE PLAN

#### *Initial Triage*

- An MIH Physician Assistant (PA) was able to call the referring hospital and obtain contact information for the cardiologist.

#### *Diagnosis*

- The patient needed a lower cost and insurance covered medication.

#### *Actionable Treatment*

- With approval from the cardiologist, the Mobile Integrated Healthcare PA successfully switched the patient from a cost prohibitive medication to an insurance covered medication.

### OUTCOMES

#### *Results*

- The patient was able to avoid hospital readmission for more than 90 days.

#### *Cost & Time Savings*

- The MIH team's intervention prevented high cost readmission while also saving the patient money on expensive, non-covered medication.
